NAXCAT® P65D

Product Data Sheet

PHENOLSULFONIC ACID

Description: Catexel Nease LLC manufactures a wide range of aromatic sulfonic acids. Aromatic sulfonic acids are made by sulfonating aromatic compounds with sulfuric acid, SO₃, or Oleum. They are comparable in strength to mineral acids such as sulfuric acid, but are especially suitable for organic reactions where an inorganic, mineral acid could cause charring, oxidation, or an unwanted chemical reaction.

CAS #
1333-39-7

Naxcat® P65D is a phenolsulfonic acid, 65% active in water. Light color, can be an advantage in certain applications, where color is crucial. It is the mildest of our acid products and beneficial in electroplating applications.

Typical Properties:	Appearance	Red to Brown Liquid
	pH	< 1
	Specific Gravity @ 25°C	1.35
	Flash Point, °F	> 198
	Molecular weight	174.1
	Vapor Pressure	0.357 @ 68°F (phenol)
	Boiling Point, °F	518
	Solubility in water	100% @ 25°C

Product Specifications:	Property	Specification
	Active, %	65.0 – 67.0
	Hydrocarbons, %	1.0 max.
	Sulfuric Acid, %	2.8 max.
	Iron, ppm	50 max.
	Color, Gardner as is	6 max.
	Free Phenol, %	1.0 max.
	Freezing Point (°C)	3 max.

Applications: Metal Preparation & Working, Textile Dye Manufacture, Polymers & Coatings Catalyst, Oilfield Application

Storage and Handling: Keep container tightly closed when not in use. Store in cool, well ventilated area. Steel is corroded by sulfonic acids and is not recommended for prolonged storage at elevated temperatures since iron and color contamination could result. Dilution with water may increase corrosivity of the acid. Material will absorb moisture.

Availability: Bulk, 600 pound drums

Chemical Control Law Status: This product is in compliance with the inventory listing requirements of the chemical control laws in the follow countries: U.S.A., Canada, China, Europe, Australia, Korea, Japan, Philippines.

Transport Regulations

Shipping Description: Aryl sulfonic acids, liquid with not more than 5 percent free sulfuric acid (Phenolsulfonic acid)
Hazard Class: 8 ID Number: UN2586 Packing Group: III Label: Corrosive
