SECTION 4: FIRST AID MEASURES

Description of first aid measures

Inhalation Remove to fresh air and keep at rest in a position comfortable for breathing.

If breathing is laboured, administer oxygen. If breathing has stopped, apply

artificial respiration.

Skin Contact Wash affected skin with plenty of water. Continue to wash the affected area

for at least 15 minutes.

Eye Contact Immediately flush eyes for at least 15 minutes. Hold eye open and rinse

slowly and gently with water. Continue rinsing. Seek medical treatment when

anyone has symptoms apparently due to contact with eyes.

Ingestion Drink two glasses of water. Call a physician. If swallowed, and the victim is

conscious and alert, induce vomiting immediately, as directed by medical

personnel.

Most important symptoms and effects, both

acute and delayed

None

Indication of any immediate medical attention

and special treatment needed

None

SECTION 5: FIRE-FIGHTING MEASURES

Extinguishing media

-Suitable Extinguishing Media Extinguish with waterspray, dry chemical, sand or carbon dioxide.

-Unsuitable Extinguishing Media None anticipated.

Special hazards arising from the substance or

mixture

None anticipated.

Advice for fire-fighters Fire fighters should wear complete protective clothing including self-

contained breathing apparatus.

SECTION 6: ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Put on protective equipment before entering danger area.

Environmental precautions Do not allow to enter drains, sewers or watercourses.

Methods and material for containment and

cleaning up

Sweep up spilled substance but avoid breathing dust. Transfer to a container for disposal or recovery. Wash the spillage area with water. If possible

prevent water running into sewers.
